

Day 1

This is Noji Ratzlaff with an announcement for all those monitoring this frequency. In ten minutes we'll be holding the Annual 76ers Santa Net, and ask that all stations stand by at that time so that we could make room for the little ones to talk with Santa. This is KNØJI standing by for the net.

This is Noji Ratzlaff once again with an announcement for all those monitoring this frequency. In five minutes we'll be holding the Annual 76ers Santa Net, and ask that all stations stand by at that time so that we could make time for the Net. This is KNØJI standing by for the net.

QST, QST, QST! Calling a 76ers Santa Net! This is KNØJI for the Annual 76ers Santa Net. Welcome to everybody monitoring and listening. As many of you know, we have a very special guest on our net, and he's standing by to take check-ins from *all* kids of *all* ages.

When Santa asks for your check-in, please state the last two or three letters of your call sign. When Santa acknowledges you, just state your full call sign, hand you mic to your little ones, and let 'em have at it. No need to restate all of that for multiple kids. When your family members have all had a turn, just end with your call sign, and turn the Net back to Santa.

So, at this time, let's turn it over to the big, jolly guy himself. This is KNØJI over to Santa.

...

Thank you so much, Santa, for taking time out of your busy schedule. 7-3 to you, to Mrs. Claus, and all your helpers. This is Noji Ratzlaff closing the first night of our Annual 76ers Santa Net. Thanks to Carl, WE7OMG, for opening the IRLP and the reflectors. And thanks to the repeater and reflector owners who've been kind enough to allow us to use their equipment to hold this net.

Most of all, thanks to everybody who checked in to get your family on the net. If you weren't able to speak with Santa tonight, not to worry...we'll continue this net tomorrow night on this same frequency at 7:30 pm. 7-3 and Merry Christmas to all! KNØJI.

Day 2

This is Noji Ratzlaff with an announcement for all those monitoring this frequency. In ten minutes we'll be holding the Annual 76ers Santa Net, and ask that all stations stand by at that time so that we could make room for the little ones to talk with Santa. This is KNØJI standing by for the net.

Thanks to Carl, WE7OMG, for opening the IRLP and the reflectors. And thanks to the repeater and reflector owners who've been kind enough to allow us to use their equipment to hold this net.

Most of all, thanks to everybody who checked in and to those who hosted third-party to get your family on the net. If you weren't able to speak with Santa tonight, we're so sorry, but we plan to hold this net again next year, and hope to hear you then. 7-3 and Merry Christmas to all. KNØJI.
